Why was it necessary to break links?

Thanks,

Claudia

**Subject:** Preparation - U&O FIP Docket Spreadsheets

Hi All,

For the Cost Analysis and Emission Reduction spreadsheets located in the "UO FIP-Docket Files" folder in the U&O FIP folder on the I drive, I deleted all the comments (I was told comments aren't releasable) and broke the links among the workbooks.

I only did this for the spreadsheets to be put in the docket and the versions in the "Technical Support Documents" remain intact.

If you have any concerns about deleting the comments please let me know.

Also, I wonder if we need to delete any metadata associated with these spreadsheets before they

are put in the docket? Aaron, do you know anything about removing metadata from files?

Thanks

Alexas
